

PRESS RELEASE: Art on Paper - A New Fair for Drawings in Denmark

Inspired by Salon du Dessin in Paris, Museumsbygningen will be hosting the first fair for art on paper in Copenhagen from the 25th -28th of September.

At the fair eleven different galleries and antiquarians will present drawings, graphic, posters and books. The participants are: Bassenge Berlin (D), James Bauerle Danish Fine Art (DK), Peter Brodersen Antik (DK), Peter Grosell's Antikvariat (DK), Kunsthandel Nina J (DK), Banja Rathnov Galleri & Kunsthandel (DK), Riisgaard & Hjort (DK), Sct. Pauli Vintage Plakater (DK), Titelbech Fine Prints (DK), Vangsgaard Antikvariat (DK) and Galleri Weinberger (DK). Furthermore two private collectors, one of whom is the well-known Danish actor Søren Østergaard, will present some of the finest pieces from their collections.

Each participant creates a personal universe in one of the beautiful rooms in Museumsbygningen, which gives the audience the opportunity to experience a rich variety of art on paper; etchings from the 17th century, studies of landscape from the Netherlands, art from the Danish Golden Age, classic modernism and modern art, for example photography.

Many art collectors begin by collecting drawings, because of their size and the fact that they, most of the time, are less expensive than bigger and more completed pieces of art.

But the sketch and paper have their own quality, which also attracts the more established part of the art collectors - the drawing is often a good expression of the artists' first and possibly best ideas.
