

PRESS RELEASE: Photo Collect Copenhagen - A Curated Fair for Fine Art Photography and Lens Based Art

Photographic art is more popular than ever - especially amongst young collectors. Therefore eight galleries have joined up to create a new forum for photography.

From the 28th-31st of August the first edition of Photo Collect Copenhagen will take place in Museumsbygningen at Østerbro.

Photo Collect Copenhagen is a curated fair for Danish and international fine art photography and lens based art with the following galleries participating: Galleri Image, The Photographers Print, Charlotte Fogh Gallery, Pola Magnetyczne, In the Gallery, Galleri Vasli Souza, Kirkegaard's Antikvariat and Banja Rathnov Galleri & Kunsthandel.

Museumsbygningen was built in 1915 by the Consul General Johan Hansen for his private collection of art and has in the recent past been used by the National Gallery of Denmark and other institutions for different events. Today Banja Rathnov Galleri & Kunsthandel is situated in the building and the primary focus is photography.

During Photo Collect Copenhagen the participating galleries creates a personal universe in one or a couple of the beautiful rooms in Museumsbygningen. This makes the fair varied and gives the audience an opportunity to experience the great diversity of photographic art.

*Photo Collect Copenhagen, Museumsbygningen, Kastelsvej 18, 2100 Copenhagen
